

## Fully Framed Shower Screens

A Fully Framed Pivot Shower Screen has no exposed glass edges - aluminium sections totally surround the glass.

### Correct Measurement

To achieve a great finished product it is imperative that your Shower Screen be measured correctly. We take particular care with:

- *Height* - we generally aim to "tie in" the height with a tile grout line, or door/window frame
- *Plumb/Levels* - how far out are your wall & floor tiles? If they vary by more than 2mm we manufacture your Shower Screen "out of square"
- *Door Size/Position* - are there any obstacles to the door when opened, e.g. taps, towel rails, doors, etc.

- The best choice when you need an economical, modern, "slimline" style (frame width is only 25mm), that can withstand years of hard use
- Ideal for use by young children and elderly persons
- "Easy Clean"
- Our system can accommodate all design situations - every Shower Screen is custom made
- Available in Grade A Safety Glass - Clear & Obscure Patterned
- Frame colours include Bright Silver ("Chrome"), White, Matt Natural, Almond Cream
- Full height Magnetic Seal & Door Handle - Pivot Door opens out.

### How Long Does it Take?

It takes between 1 and 2 weeks to manufacture and install your "custom made" Shower Screen.

### What Does it Cost?

A Single Door Front and Return Panel, 1900x900x900mm costs approximately \$950 incl. GST.

### What About Cleaning?

The design makes it easy to clean. All glass requires regular cleaning.

### Water Loss Potential?

Please refer to the "Water Loss Guide" on our website.

### TESTIMONIALS

"Advised owner job completed... I'm sure he'll be pleased that it got done early. Thanks for the effort and professionalism in achieving the tight deadline."
