- Ideally suited to "tight" bathrooms where a pivot door system is impractical
- Heavy duty non-corrosive components used throughout
- The Heavy Duty adjustable rollers and guide blocks ensure years of trouble free use
- The design of the aluminium sections and components ensure easy cleaning
- Our system can accommodate all design situations
- Available in Grade A Safety Glass, Clear & Obscure Patterned
- Frame colours include Bright Silver, White & Almond.

How Long Does it Take?

It takes between 1 and 2 weeks to manufacture and install your "custom made" Shower Screen.

What Does it Cost?

A "3 Panel" Front and Return Panel, 1900x900x900mm costs approximately \$1040 incl. GST.

Don't the Doors Jamb?

The Series 9300™ is a proven, trouble free design. In addition it can be manufactured using the sequential door opening system.

Water Loss Potential?

Please refer to the "Water Loss Guide" on our website.

The Australian Design Award winning Series 9300™ Sliding Shower Screen combines great looks with low maintenance.

Correct Measurement

To achieve a great finished product it is imperative that your Shower Screen be measured correctly. We take particular care with:

- *Height* - we generally aim to "tie in" the height with a tile grout line, or door/window frame
- *Plumb/Levels* - how far out are your wall & floor tiles? If they vary by more than 2mm we manufacture your Shower Screen "out of square"
- *Door Size/Position* - which is the best way to open your doors considering the position of taps, towel rails, doors, etc.?
