

Shower Screens Factsheet

10mm Frameless Shower Screens

10mm Fully Frameless Shower Screens are the “ultimate” design for the modern bathroom.

Correct Measurement

Fully Frameless Shower Screens demand extremely accurate measurement - they have to be “mm perfect”. We take particular care with:

Height - we generally aim to “tie in” the height with a tile grout line, or door/window frame.

Plumb/Levels - how far out are your wall & floor tiles? Even a 2mm variation from true has to be taken into consideration.

Door Size/Position - are there any obstacles to the door when opened, e.g. taps, towel rails, doors, etc.

Hinges - how will the weight of the door be supported?

Product Features and Benefits

- Unsurpassed design and appearance for top quality bathrooms
- Top Quality “Opus ” or “Pivotech” Hinges (we do not use cheap imports) and brackets
- Doors can be fitted with straight & tapered knobs, and “C” and “D” handles
- Fittings/hinges can be ordered in Chrome, Satin and “Black”

Frequently Asked Questions

How long will it take to install?

It takes between 1 and 2 weeks to manufacture and install your “custom made” Shower Screen.

What does it Cost?

A “2 Panel” Front and Return Panel, 1900x900x900mm costs approximately \$3500 incl. GST (indicative price shown may vary significantly subject to actual size and site conditions).

What About Cleaning?

The design makes it easy to clean. All glass requires regular cleaning.

What Experience do we have?

We have been designing and installing 10mm Fully Frameless Shower Screens for over 30 Years.

Water Loss Potential?

Please refer to the “Water Loss Guide” on our website.
