

Shower Screens Factsheet

Corner Entry Sliding Shower Screens

The **New** Corner Entry Sliding Shower Screen provides easy entry even when toilets and vanities are in close proximity. Both dual sliding doors have a full length PVC coated magnet which ensures positive closing and impressive water resistance.

Correct Measurement

To achieve a great finished custom made product it is imperative that your Shower Screen be measured correctly. We take particular care with:

Height - we generally aim to "tie in" the height with a tile grout line, or door/window frame.

Plumb/Levels - how far out are your wall & floor tiles? If they vary by more than 2mm we manufacture your Shower Screen "out of square".

Product Features and Benefits

- Ideally suited to "tight" bathrooms/ ensuites where a vanity or toilet restricts other designs.
- Heavy duty non-corrosive components used throughout
- The innovative design and heavy duty rollers ensure smooth operation of the doors.
- The smooth design of the aluminium sections and components ensure easy cleaning.
- Available in Grade A Safety Glass, Clear & Obscure Patterned.
- Frame colours include Bright Silver, White & Almond (components only available in Grey, White and Black).

Frequently Asked Questions

How long will it take to install?

It takes between 1 and 2 weeks to manufacture and install your "custom made" Shower Screen.

What does it Cost?

A Corner Entry Sliding Shower Screen, 1900x900x900mm costs approximately \$1050 incl. GST (indicative price shown may vary significantly subject to actual size and site conditions).

Don't the Doors Jamb?

The Corner Entry system is developed from the proven Series 9300™ Sliding design.

Water Loss Potential?
