

## Shower Screens Factsheet

# Fully Framed Shower Screens

A Fully Framed Pivot Shower Screen has no exposed glass edges - aluminium sections totally surround the glass.

### Correct Measurement

To achieve a great finished product it is imperative that your Shower Screen be measured correctly. We take particular care with:

**Height** - we generally aim to "tie in" the height with a tile grout line, or door/window frame.

**Plumb/Levels** - how far out are your wall & floor tiles? If they vary by more than 2mm we manufacture your Shower Screen "out of square"

**Door Size/Position** - are there any obstacles to the door when opened, e.g. taps, towel rails, doors, etc.

### Product Features and Benefits

- The best choice when you need an economical, modern, "slimline" style (frame width is only 25mm), that can withstand years of hard use.
- Ideal for use by young children and elderly persons.
- "Easy Clean"
- Our system can accommodate all design situations - every Shower Screen is custom made.
- Available in Grade A Safety Glass - Clear & Obscure Patterned
- Frame colours include Bright Silver ("Chrome"), White, Matt Natural, Almond Cream.
- Full height Magnetic Seal & Door Handle - Pivot Door opens out.

### Frequently Asked Questions

#### How long will it take to install?

It takes between 1 and 2 weeks to manufacture and install your "custom made" Shower Screen.

#### What does it Cost?

A Single Door Front and Return Panel, 1900x900x900mm costs approximately \$995 incl. GST (indicative price shown may vary significantly subject to actual size and site conditions).

#### What About Cleaning?

The design makes it easy to clean. All glass requires regular cleaning.

#### Water Loss Potential?

Please refer to the "Water Loss Guide" on our website.
