

## Shower Screens Factsheet

# Semi-Frameless Shower Screens

This is our most popular design. Aluminium framing is restricted to the perimeter walls, floor and top. The Pivot Door is unframed.

### Correct Measurement

To achieve a great finished product it is imperative that your Shower Screen be measured correctly. We take particular care with:

**Height** - we generally aim to "tie in" the height with a tile grout line, or door/window frame.

**Plumb/Levels** - how far out are your wall & floor tiles? If they vary by more than 2mm we manufacture your Shower Screen "out of square"

**Door Size/Position** - are there any obstacles to the door when opened, e.g. taps, towel rails, doors, etc.

### Product Features and Benefits

- The ideal choice when the "clear minimalist look" is desired.
- Modern Slimline Frame profile is 25mm square. The "positive close" Pivots are unobtrusive.
- "Easy Clean"
- Our system can accommodate all design situations - every Shower Screen is custom made.
- Available in 6mm Clear Toughened Grade A Safety Glass, and Obscure Patterned
- Frame colours include Bright Silver ("Chrome"), White, Matt Natural, Almond Cream and Black.
- Unframed Pivot Door opens both inwards and outwards. 25mm square door knob standard.

### Frequently Asked Questions

#### How long will it take to install?

It takes between 3 and 4 weeks to manufacture and install your "custom made" Shower Screen.

#### What does it Cost?

A Single Door Front and Return Panel, 1900x900x900mm costs approximately \$1500 incl. GST (indicative price shown may vary significantly subject to actual size and site conditions).

#### What About Cleaning?

The design makes it easy to clean. All glass requires regular cleaning.

#### Water Loss Potential?

Please refer to the "Water Loss Guide" on our website.
