

Shower Screens Factsheet

Semi-Frameless Shower Screens

This is our most popular design. Aluminium framing is restricted to the perimeter walls, floor and top. The Pivot Door is unframed.

Correct Measurement

To achieve a great finished product it is imperative that your Shower Screen be measured correctly. We take particular care with:

Height - we generally aim to "tie in" the height with a tile grout line, or door/window frame.

Plumb/Levels - how far out are your wall & floor tiles? If they vary by more than 2mm we manufacture your Shower Screen "out of square"

Door Size/Position - are there any obstacles to the door when opened, e.g. taps, towel rails, doors, etc.

Product Features and Benefits

- The ideal choice when the "clear minimalist look" is desired.
- Slimline frame is only 25mm wide and has a soft rounded profile. The "positive close" Pivots are unobtrusive.
- "Easy Clean"
- Our system can accommodate all design situations - every Shower Screen is custom made.
- Available in 6mm Clear Toughened Grade A Safety Glass, and Obscure Patterned
- Frame colours include Bright Silver ("Chrome"), White, Matt Natural, Almond Cream.
- Unframed Pivot Door opens both inwards and outwards. 19mm diam. door knob standard.

Frequently Asked Questions

How long will it take to install?

It takes between 1 and 2 weeks to manufacture and install your "custom made" Shower Screen.

What does it Cost?

A Single Door Front and Return Panel, 1900x900x900mm costs approximately \$1145 incl. GST.

What About Cleaning?

The design makes it easy to clean. All glass requires regular cleaning.

Water Loss Potential?

Please refer to the "Water Loss Guide" on our website.
